THE BRAINCHILD OF CONGRESSMAN JIM COOPER, the L Golden Goose Award recognizes the enormous and often unanticipated impacts that obscure or odd-sounding federally funded research has had on society—from life-saving medical treatments to game-changing social and behavioral insights to major technological advances.

Awardees are announced throughout the year, followed by an award ceremony each fall in Washington, DC.

The Golden Goose Award is supported by generous donations from professional societies, colleges, universities, and corporations; and enjoys bipartisan support from Members of Congress in the House and Senate, including Rep. Suzanne Bonamici, Sen. Chris Coons, Rep. Charlie Dent, Rep. Robert Dold, Rep. Donna Edwards, and Rep. Randy Hultgren.

"Tell me a fact, and I'll learn. Tell me a truth, and I'll believe, but tell me a story and it will live in my heart forever.'

> — INDIAN PROVERB OFTEN CITED BY REP. JIM COOPER

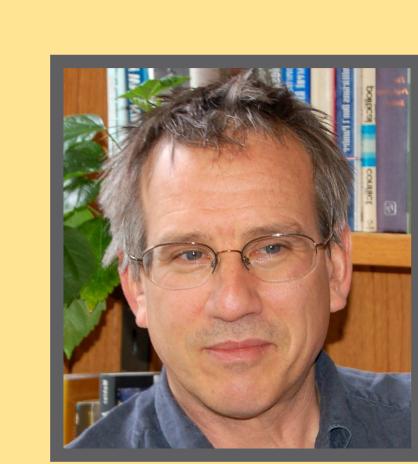

# CONGRATULATIONS TO OUR FIRST TEAM OF 2016 GOLDEN GOOSE AWARDEES

## A TALE OF TWO STUDIES: THE ADOLESCENT HEALTH STORY

after awarded.

IN 1991, DR. RONALD RINDFUSS AFTER FIERCE DEBATE, had to deliver devastating news to Drs.

AFTER FIERCE DEBATE, open access research, Add Health Bearman, Entwisle, Udry and the rest of but at the same time mandated that has enabled over 10,000 researchers to the American Teenage Study (ATS) team: NIH fund a prospective longitudinal carry out thousands of scientific studies. after years of designing this innovative study of adolescent health broadly. Drs. Findings on everything from the impact study of adolescent sexual behavior, their Udry, Harris, and Bearman answered of relationships on health to causes and \$21.5 million merit review approved the call by building on ATS's innovative consequences of the obesity epidemic NIH grant—the largest ever awarded design to create the multidisciplinary, help shape national to individual in social and behavioral sciences at the longitudinal National Longitudinal actions affecting human health—from time—had been canceled just months Study of Adolescent Health, or Add adolesecence to adulthood.
