National Institute on Drug Abuse (NIDA)

National Institute on Minority Health and Health Disparities
(NIMHD)

National Institute of Nursing Research (NINR)

Office of Behavioral and Social Sciences Research (OBSSR)

Office of Disease Prevention (ODP)

2015 is the 20th anniversary of the establishment of OBSSR.

The past two decades have seen increasing recognition of the importance of behavioral and social factors in the prevention and treatment of disability and disease. OBSSR's mission is to stimulate behavioral and social sciences research throughout NIH and to integrate these areas of research more fully into the NIH health research enterprise, thereby improving our understanding, treatment, and prevention of disease.
