OCTOBER 10, 2019
ROADMAP

• WHAT IS ERS?
• WHAT HAPPENED TO ERS?
• WHAT ARE THE CONSEQUENCES FOR ERS PRODUCTS/PROGRAMS/CUSTOMERS?
• WHAT DOES THE ERS EXPERIENCE IMPLY FOR THE FEDERAL STATISTICAL AND RESEARCH SYSTEMS?
ERS is the statistical and policy research arm of the USDA, serving USDA’s farm, food, natural resource and rural economic program and policy makers.

• Collects original statistics via surveys
• Compiles and organizes multiple data sets to elucidate issues
• Anticipates USDA policy issues on the horizon
• Plans and conducts empirical research to inform anticipated policy issues – program and policy decisionmakers its primary audience
ERS IS ORGANIZED INTO 4 DIVISIONS

• MARKET AND TRADE ECONOMICS
• RURAL AND RESOURCE ECONOMICS
• FOOD ECONOMICS
• INFORMATION SERVICES
  • INFORMATION TECHNOLOGY
  • GEOSPATIAL DATA DEVELOPMENT
  • PUBLICATIONS AND COMMUNICATIONS
ERS CONDUCTS

• INTRAMURAL RESEARCH
• EXTRAMURAL RESEARCH
  • GRANTS
  • COOPERATIVE RESEARCH AGREEMENTS
• STAFF ANALYSIS AT THE REQUEST OF DECISIONMAKERS AND BASED ON DATA AND RESEARCH FINDINGS

AND

• IT IS ONE OF 13 OFFICIALLY DESIGNATED STATISTICAL AGENCIES OF THE US
MAJOR DATA COLLECTION ACTIVITIES

• AGRICULTURAL RESOURCE MANAGEMENT SURVEY (ARMS)
  • COST OF PRODUCTION ESTIMATES (MANDATED FOR VARIOUS COMMODITIES)
  • BASIS FOR FARM & FARM HOUSEHOLD INCOME ESTIMATES & PROJECTIONS
  • ALLOWS ESTIMATION OF RELATIONSHIPS AMONG PRODUCTION PRACTICES, THE FARM BUSINESS, AND FARM HOUSEHOLD WELL BEING
  • GENERATES HIGHLY DETAILED DATA, MUCH AVAILABLE AT THE COUNTY LEVEL
MAJOR DATA COLLECTION ACTIVITIES (CONTINUED)

• NATIONAL HOUSEHOLD FOOD ACQUISITION AND PURCHASE SURVEY (FOODAPS)
  • NATIONALLY REPRESENTATIVE SURVEY OF AMERICAN HOUSEHOLDS TO COLLECT COMPREHENSIVE DATA ABOUT HOUSEHOLD FOOD PURCHASES AND ACQUISITIONS: FOODS PURCHASED OR OTHERWISE ACQUIRED FOR CONSUMPTION AT HOME AND AWAY FROM HOME, INCLUDING FOODS ACQUIRED THROUGH FOOD AND NUTRITION ASSISTANCE PROGRAMS.
  • OVERSAMPLES LOW INCOME HOUSEHOLDS
  • PUBLIC USE DATA FILES AND RESTRICTED FILES FOR RESEARCH
SOME HIGHLY VALUED ERS DATA MASHUPS AND TOOLS

• FOOD ENVIRONMENT ATLAS – GEOSPATIAL DATABASE MAPS COMMUNITY ACCESS TO AFFORDABLE, HEALTHY FOOD, TYPES OF FOOD OUTLETS, DIET RELATED HEALTH INDICATORS, AND OTHER VARIABLES

• ATLAS OF RURAL AND SMALL TOWN AMERICA – GEOSPATIAL INDICATORS ABOUT PEOPLE, JOBS, INCOME, VETERANS, COUNTY TYPES. ETC.

• FOOD ACCESS RESEARCH ATLAS -- A MAPPING TOOL ALLOWING USERS TO INVESTIGATE MULTIPLE INDICATORS OF FOOD STORE ACCESS, INCORPORATING ALTERNATIVE ESTIMATES OF LOW INCOME AND LOW ACCESS CENSUS TRACTS

• FOOD SECURITY DATA ACCESS AND DOCUMENTATION -- PROVIDES INFORMATION FROM PUBLICLY AVAILABLE NATIONAL SURVEYS THAT INCLUDE QUESTIONS FROM THE U.S. FOOD SECURITY SURVEY MODULE
SOME EXAMPLES OF VALUE ADDED DATA SERIES

- Commodity Costs and Returns
- Cost Estimates of Foodborne Illnesses
- ERS Creative Class County Codes
- Food Dollar Series
- Foreign Agricultural Trade of the US
- Agricultural Productivity
- Natural Amenities Scale
- Price Spreads, Farm to Consumers
- Season Average Price Forecasts
- Adoption of GMO Crops in the US
- Agricultural Trade Multipliers
- Farm Income and Wealth Statistics
- Fertilizer Use and Practices
- Loss Adjusted Food Availability
SOME EXAMPLES OF ERS INTRAMURAL RESEARCH INFORMING FEDERAL POLICY

• NATURAL RESOURCE CONSERVATION PROGRAM OPTIONS – EFFICIENCY AND EFFECTIVENESS

• RELATIONSHIP BETWEEN CROP INSURANCE PROVISIONS AND ENVIRONMENTAL QUALITY

• IMPLICATIONS OF ALTERNATIVE TRADE AGREEMENT PROVISIONS TO INFORM INTERNATIONAL NEGOTIATIONS

• RELATIVE SUCCESS OF ALTERNATIVE APPROACHES TO RURAL ECONOMIC DEVELOPMENT

• UNDERSTANDING FOOD DESERTS TO IDENTIFY FEASIBLE ROLES FOR FEDERAL PROGRAMS

• IMPLICATIONS OF DECLINING PRODUCTIVITY ACCOUNTS FOR AGRICULTURE
2 UNIQUE ERS EXTRAMURAL RESEARCH PROGRAMS

• GRANTS UNDER THE FOOD AND NUTRITION RESEARCH PROGRAM, 2003-2008

• COMPETITIVE GRANTS IN THE APPLICATION OF BEHAVIORAL ECONOMICS TO RESOURCE CONSERVATION AND NUTRITION PROGRAMS
HOW WELL HAS ERS PERFORMED?

• ERS RANKS IN THE TOP 5-PERCENT OF ACADEMIC AND NON-ACADEMIC ECONOMIC INSTITUTIONS FOR ECONOMIC RESEARCH OVERALL

• ERS CITED AS AN “ACKNOWLEDGED INTELLECTUAL LEADER IN CONSTRUCTION AND INTEGRATION OF… PRODUCTIVITY ACCOUNTS IN AGRICULTURE”

• AGENCY LEADERS AND RESEARCH STAFF HAVE RECEIVED HIGHEST PROFESSIONAL AWARDS
USDA SECRETARY PERDUE’S ERS REORGANIZATION AND RELOCATION

• IN AUGUST 2018, PERDUE ANNOUNCED HIS INTENTION TO:
  • MOVE ERS FROM USDA’S RESEARCH, EDUCATION AND ECONOMICS UNDER SECRETARY AND PLACE IT ORGANIZATIONALLY UNDER THE CHIEF ECONOMIST IN THE SECRETARY’S OFFICE (LATER RESCINDED)
  • PUT OUT A NOTICE FOR LOCATIONS OUTSIDE OF THE DC NATIONAL CAPITAL REGION TO BID TO HOUSE ERS AND A SISTER AGENCY, THE NATIONAL INSTITUTE OF FOOD AND AGRICULTURE (NIFA)

• IN JUNE 2019, THE SECRETARY SELECTED THE KANSAS CITY REGION FROM AMONG BIDS SUBMITTED, BUT NO PERMANENT SITE WITHIN THE REGION HAS YET BEEN ANNOUNCED

• A USDA COST-BENEFIT ANALYSIS TO JUSTIFY THE RELOCATION WAS RELEASED TEN MONTHS AFTER SECRETARY PERDUE HAD ANNOUNCED THE MOVE AND SUGGESTED SAVINGS OF $300 MILLION. — AN AAEA ANALYSIS DISPUTES ANY NET COST SAVINGS
ERS RELOCATION PLANS ERRATIC AND FRANTIC

- LIMITED TIME FOR INDIVIDUAL STAFF TO DECIDE WHETHER TO MOVE
- INADEQUATE FORETHOUGHT ABOUT EMPLOYEE INCENTIVES
- ABSURD ASSUMPTIONS ABOUT EMPLOYEE RETENTION AND RECRUITMENT
OUTCOME

• OF 181 EMPLOYEES SCHEDULED TO MOVE, 16 PEOPLE (9-PERCENT) HAVE MOVED TO KANSAS CITY, 24 WILL REMAIN IN D.C. UNTIL THEY MUST EITHER QUIT OR MOVE BY DEC. 9, AND 141 (78-PERCENT) HAVE RESIGNED OR RETIRED SINCE JUNE 15.
  • THE ENTIRE PUBLICATIONS STAFF QUIT

• THE MOVE HAS DISPROPORTIONATELY AFFECTED FEMALE EMPLOYEES.

• INCORRECT ASSUMPTIONS ABOUT EMPLOYEE RETENTION LED USDA TO OFFER TEMPORARY REHIRES TO INDIVIDUALS WHO HAD SEPARATED FROM THE AGENCY.
IMPACTS SO FAR

• USDA SAYS “DUE TO DECREASED STAFFING LEVELS, ERS WILL FOR CONSIDERABLE TIME BE UNABLE TO PROVIDE THE SAME LEVEL OF BREADTH AND DEPTH IN ITS ECONOMIC RESEARCH AND OUTLOOK ANALYSIS AS IT DID IN THE PAST.”
  • DELAY OR DISCONTINUATION OF NUMEROUS ERS REPORTS OR STUDIES.
  • ROUTINE REPORTS IN THE MEAN TIME ARE SHORTENED, WITH LESS BREADTH AND DEPTH OF COVERAGE
• SUCCESSFUL RECRUITMENT OF NEW RESEARCH STAFF TO BE LOCATED IN KANSAS CITY IS SLOW
• INTERAGENCY COORDINATION STYMIED
NOT AN ISOLATED INCIDENT

• BLM RELOCATION
• PROPOSAL FOR CITIZENSHIP QUESTION ON 2020 CENSUS
• ALTERED HURRICANE FORECAST
• REDUCED RESEARCH PROGRAMS AT EPA
• ELIMINATION OF NUMEROUS FEDERAL SCIENTIFIC ADVISORY COMMITTEES
IMPLICATIONS

• POTENTIAL LOSS OF TRUST IN GOVERNMENT SCIENCE AND STATISTICS
  • EXACERBATING LOWER SURVEY RESPONSE RATES FOR ALL FEDERAL SURVEYS
• REDUCED EVIDENCE-BASED POLICY DECISION MAKING
  • AND MORE BAD DECISIONS
• INCREASED DIFFICULTY RECRUITING HIGHLY QUALIFIED PROFESSIONALS FOR FEDERAL SERVICE

Homework

- Join the Strong ERS listserv to share information and get involved in efforts to protect USDA statistics and research.
  - Email jmilton@cossa.org to be put in touch with organizers.

- Plan your travel for 2020 Social Science Advocacy Day, March 30-31
  - Hotel block details available on the COSSA website. Registration will open in December. www.cossa.org/event/2020-advocacy-day

- Share your story with COSSA
  - www.cossa.org/share-your-story
Next Month:

- November’s HEADLINES
- DEEP DIVE: 2020 Census with Mary Jo Hoeskema (PAA Director of Government Affairs & Co-Director of the Census Project)
