WHERE YOU LIVE CAN MAKE YOU HEALTHIER
Built environments can greatly influence health behaviors. Social science has taught us that the “walkability” of neighborhoods—how conducive an area is to pedestrian activity versus driving—can influence obesity rates, which in turn influences the incidence of type 2 diabetes, cardiovascular disease, and other health outcomes. Everything from the number and proximity of grocery stores to the availability of public bike share programs and parks to the prevalence of locations where people can gather and socialize affect behaviors, such as diet, activity, stress levels, and social dynamics.

THE TECHNOLOGICAL REVOLUTION HAS ROOTS IN LINGUISTICS
Study of the systematic nature of language—a central question within linguistics—has made important contributions to the creation of computer languages. In fact, the IT industry is one of the principal employers of linguistically-trained professionals. Major leaps in emulating human mental capabilities in the fields of information technology and computer science, such as in machine translation and artificial intelligence, have been possible thanks to basic linguistic research.

ANTHROPOLOGISTS SLOWED THE SPREAD OF EBOLA
Anthropologists working for the UN Mission for Ebola Emergency Response were the first to discover why Ebola was spreading so quickly during its initial outbreak in West Africa. As a cultural practice, communities in the affected areas delay burying their dead for days at a time, often bringing the bodies into their homes for mourning and funeral preparation. Working with a global network of anthropologists, the UN team delivered briefings and targeted reports, producing evidence that helped guide policy and shape interventions and strategy in combatting the epidemic.

ECONOMICS RESEARCH CAN IMPROVE GOVERNMENT FUNCTIONS
Fundamental research in economics has improved government policies, including in the areas of trade liberalization, air-transport deregulation, monetary economics, welfare-to-work reform, and antitrust practices. Much of this fundamental research got its start with support from the federal government.

POLITICAL SCIENCE RESEARCH SUPPORTS COUNTER-TERRORISM AND CONFLICT PREVENTION
Political science plays a critical role in understanding causes of international conflict and informing the means to prevent it. Research in the discipline, including federally funded projects, has tracked the growth of violent extremist organizations and relationships among groups to understand patterns in how they evolve and operate. Other political science work has mined foreign language data across the globe to understand causes of international strife and inform decision making on conflict prevention.

SOCIAL SCIENCE CAN HELP YOU SAVE FOR RETIREMENT
Research in psychology and economics has shown that individuals are not saving enough for retirement and that they are generally passive when it comes to their savings behavior. Research conducted with support from the federal government led to enactment of the Pension Protection Act of 2006, which encourages employers to adopt features such as automatic enrollment, employer contribution, contribution escalation, and qualified default investment alternative practices. As a result, an increasing number of U.S. families are now saving more for retirement.

Of the $42 billion the federal government spends on research and development each year, less than 5% ($1.9 billion) goes to social and behavioral science research. This modest investment has yielded significant payoffs in the form of meaningful contributions to nearly every aspect of American life.

Knowledge derived from social and behavioral science research has made our population healthier, our democracy fairer, our nation safer, and our economy stronger. But more still needs to be done—investment in social and behavioral science must continue to grow to yield benefits for the American people.

ALABAMA

colleges and universities receive

$17.3 million

in

annual federal investment in

Social & Behavioral Science Research

Federal agencies supporting social & behavioral science research in Alabama include:

- Dept. of Health and Human Services (incl. NIH): $9.9M
- Dept. of Defense: $3.2M
- Other Federal Departments and Agencies: $2.4M
- National Science Foundation: $858,000

Alabama institutions supported by federal social & behavioral science investment include:

- University of Alabama at Birmingham: $4.9M
- University of Alabama, Tuscaloosa: $4.6M
- Auburn University, Auburn: $3.1M
- University of Alabama in Huntsville: $2.7M
- Alabama A&M University: $1.4M
- University of South Alabama: $427,000

Federal investments in social and behavioral science research contribute to Alabama’s economy and generate knowledge that helps us make America healthier, safer, and more prosperous.

ARIZONA

colleges and universities receive

$40.4 million

in

annual federal investment in

Social & Behavioral Science Research

Federal agencies supporting social & behavioral science research in Arizona include:

- Dept. of Health and Human Services (incl. NIH): $17.1M
- National Science Foundation: $11.4M
- Other Federal Departments and Agencies: $7.6M
- Dept. of Defense: $2.5M

Arizona institutions supported by federal social & behavioral science investment include:

- Arizona State University: $33.3M
- University of Arizona: $6.7M
- Northern Arizona University: $363,000

Federal investments in social and behavioral science research contribute to Arizona’s economy and generate knowledge that helps us make America healthier, safer, and more prosperous.

ARKANSAS

colleges and universities receive

$2.6 million

in

annual federal investment in

Social & Behavioral Science Research

Federal agencies supporting social & behavioral science research in Arkansas include:

- Other Federal Departments and Agencies: $848,000
- National Science Foundation: $720,000
- Dept. of Health and Human Services (incl. NIH): $487,000
- Dept. of Agriculture: $323,000

Arkansas institutions supported by federal social & behavioral science investment include:

- University of Arkansas, Fayetteville: $2.2M
- Arkansas State University, Jonesboro: $179,000
- Arkansas Tech University: $179,000
- University of Arkansas at Little Rock: $27,000
- University of Central Arkansas: $2,000

Federal investments in social and behavioral science research contribute to Arkansas’s economy and generate knowledge that helps us make America healthier, safer, and more prosperous.

CALIFORNIA

colleges and universities receive

$182.0 million

in

annual federal investment in

Social & Behavioral Science Research

Federal agencies supporting social & behavioral science research in California include:

- Dept. of Health and Human Services (incl. NIH): $91.6M
- National Science Foundation: $27.9M
- Other Federal Departments and Agencies: $23.1M
- NASA: $21.7M

California institutions supported by federal social & behavioral science investment include:

- University of Southern California: $34.9M
- University of California, Los Angeles: $25.4M
- University of California, San Diego: $18.5M
- San Jose State University: $18.1M
- Stanford University: $16.8M
- University of California, Berkeley: $14.3M

Federal investments in social and behavioral science research contribute to California’s economy and generate knowledge that helps us make America healthier, safer, and more prosperous.

For more information, visit cossa.org/state-fact-sheets
COLORADO

colleges and universities receive

$41.6 million

in

annual federal investment in

Social & Behavioral Science Research

Federal agencies supporting social & behavioral science research in Colorado include:

- Dept. of Health and Human Services (incl. NIH): $23.3M
- National Science Foundation: $7.2M
- Other Federal Departments and Agencies: $5.9M
- Dept. of Agriculture: $2.0M

Colorado institutions supported by federal social & behavioral science investment include:

- University of Colorado Boulder: $20.2M
- Colorado State University, Fort Collins: $9.6M
- University of Denver: $7.0M
- University of Colorado Denver and Anschutz Medical Campus: $1.7M
- Colorado School of Mines: $1.2M
- University of Colorado Colorado Springs: $1.2M

Federal investments in social and behavioral science research contribute to Colorado’s economy and generate knowledge that helps us make America healthier, safer, and more prosperous.

DISTRICT OF COLUMBIA

colleges and universities receive

$32.9 million

in

annual federal investment in

Social & Behavioral Science Research

Federal agencies supporting social & behavioral science research in District of Columbia include:

- Other Federal Departments and Agencies: $12.9M
- Dept. of Health and Human Services (incl. NIH): $10.0M
- National Science Foundation: $5.0M
- Dept. of Defense: $4.4M

District of Columbia institutions supported by federal social & behavioral science investment include:

- George Washington University: $11.7M
- American University: $7.8M
- Georgetown University: $7.7M
- Howard University: $3.0M
- National Defense University: $2.2M
- Catholic University of America: $350,000

Federal investments in social and behavioral science research contribute to District of Columbia’s economy and generate knowledge that helps us make America healthier, safer, and more prosperous.

For more information, visit cossa.org/state-fact-sheets
FLORIDA colleges and universities receive $86.3 million in annual federal investment in Social & Behavioral Science Research.

Federal agencies supporting social & behavioral science research in Florida include:
- Dept. of Health and Human Services (incl. NIH): $55.1M
- Other Federal Departments and Agencies: $19.0M
- Dept. of Defense: $6.3M
- National Science Foundation: $4.6M

Florida institutions supported by federal social & behavioral science investment include:
- University of South Florida, Tampa: $27.6M
- Florida International University: $13.4M
- Florida State University: $12.6M
- University of Florida: $11.7M
- University of Miami: $8.1M
- University of Central Florida: $7.8M

Federal investments in social and behavioral science research contribute to Florida’s economy and generate knowledge that helps us make America healthier, safer, and more prosperous.
